SPA INTERIOR

SAUNA
COLLECTION

2026

Bespoke heat environments,
crafted for private and hospitality
wellness.

DESIGN BUILD EXPERIENCE

HEAT, SHAPED BY DESIGN.

A Comet sauna is not installed into a room. It is composed around the body, the architecture and the rhythm of use.

SINCE 2007

Turnkey sauna design, manufacturing, electromechanical integration and installation.

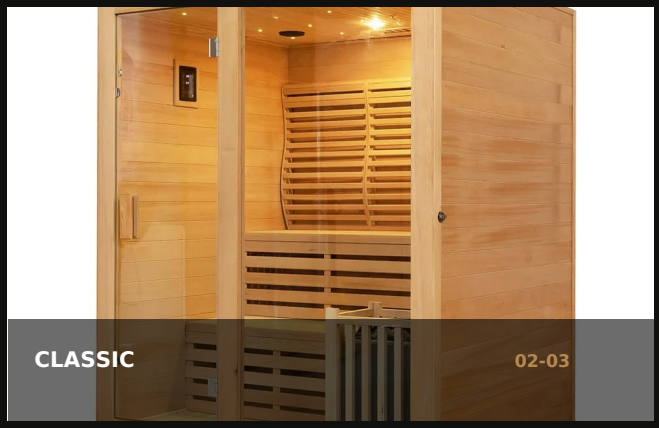

COMET SPA INTERIOR

ARCHITECTURE OF CALM

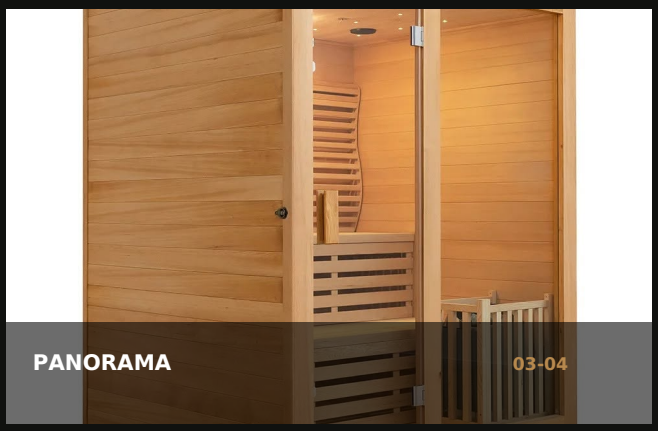

Six starting points. Every line, finish and dimension can be tailored.

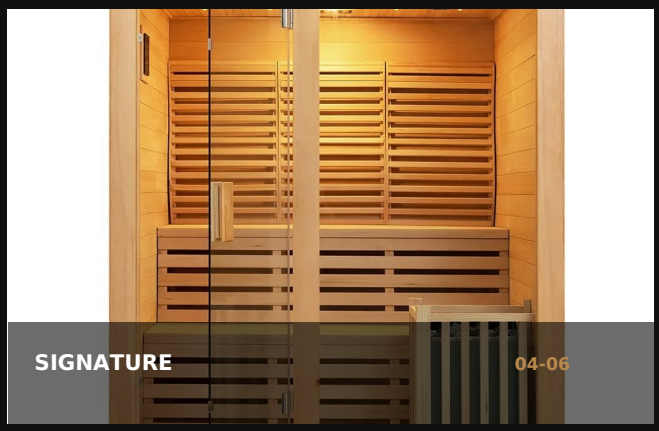

COMPACT 01-02

CLASSIC 02-03

PANORAMA 03-04

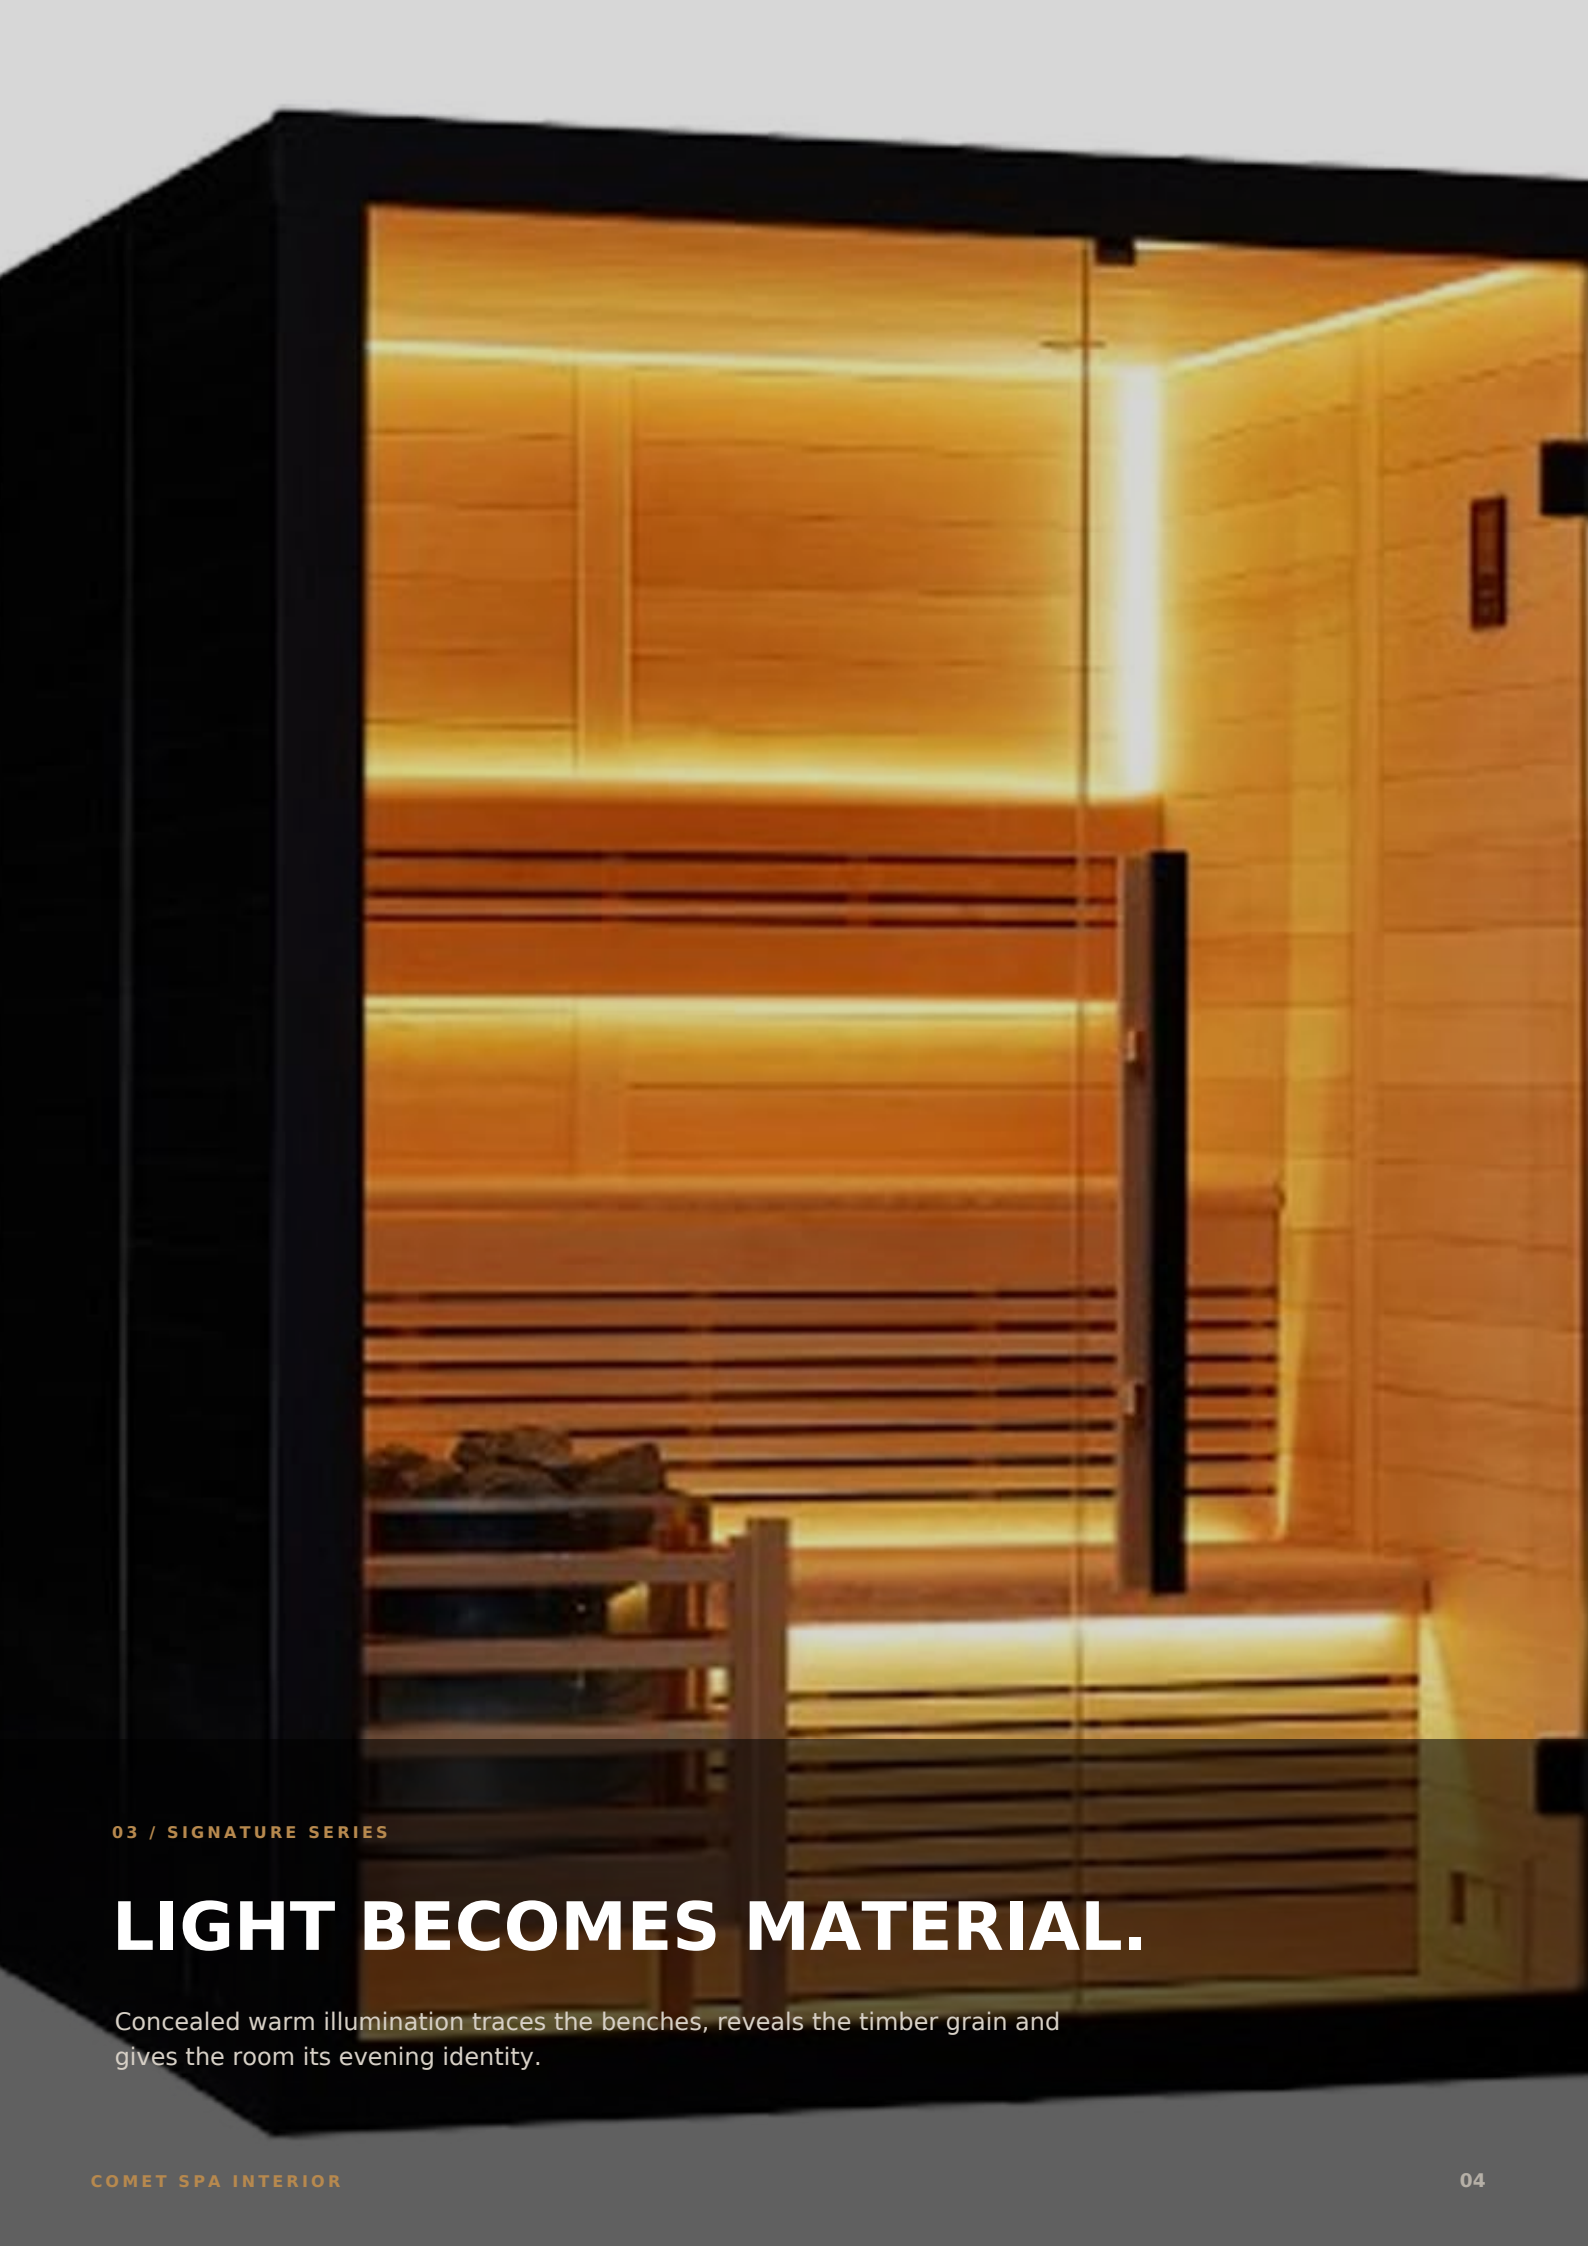

SIGNATURE 04-06

SOCIAL 06-08

HOSPITALITY BESPOKE

03 / SIGNATURE SERIES

LIGHT BECOMES MATERIAL.

Concealed warm illumination traces the benches, reveals the timber grain and gives the room its evening identity.

BEECH / PINE

Two tactile directions, selected for heat, comfort and visual character.

BEECH

Quiet grain. Pale, refined and smooth to the touch.

PINE

Warm character. Naturally expressive grain and knots.

WALL + CEILING

Approx. 12 mm lining

BENCH SURFACES

Approx. 25 mm timber

EXTERNAL TONE

Natural or project-matched stain

APPROVAL

Physical sample before production

Timber is a natural material. Tone and grain variation are part of its authentic character.

BEAUTY, LAYER BY LAYER.

The visible timber is only the final layer of a coordinated thermal envelope.

01 INTERIOR LINING

02 VENTILATED CAVITY

03 THERMAL INSULATION

04 VAPOUR BARRIER

05 STRUCTURAL FRAME

Every build-up is coordinated to site conditions, room geometry and service requirements.

ONE PERSON. ENDLESS SCALE.

Reference formats for early planning. Final dimensions remain fully bespoke.

01 **110 x 90 CM**

1 PEOPLE — 3-4.5 kW

02 **135 x 180 CM**

1-2 PEOPLE — 6 kW

03 **150 x 150 CM**

2-3 PEOPLE — 6 kW

04 **210 x 150 CM**

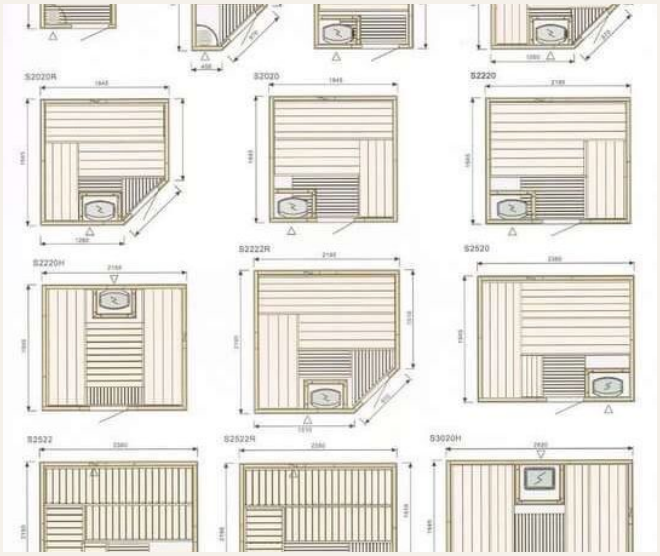

3-4 PEOPLE — 9 kW

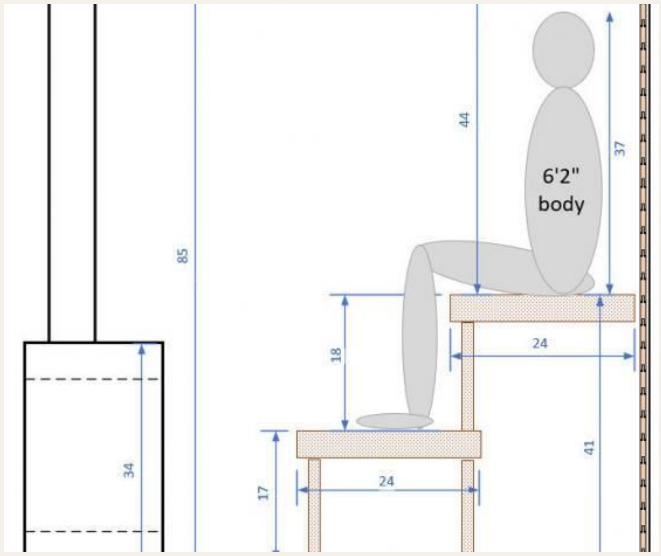

05 **276 x 140 CM**

3-5 PEOPLE — 9 kW

06 **200 x 300 CM**

5-7 PEOPLE — 12 kW

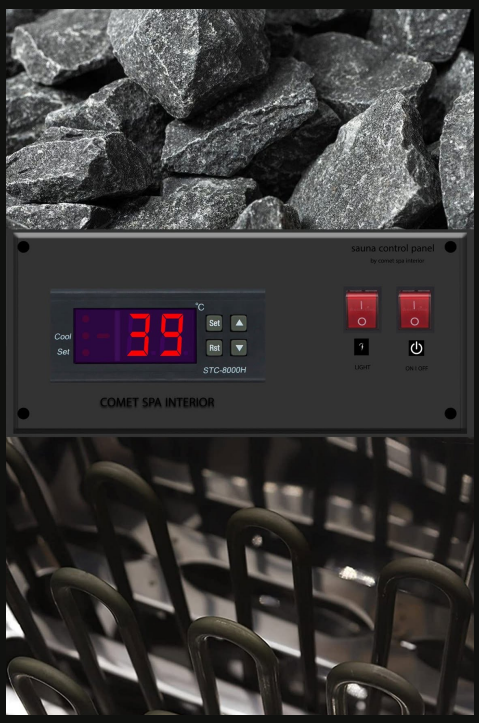

POWER, CONTROLLED.

Comet stainless-steel sauna heaters pair robust construction with external digital control.

COMET HEAT SYSTEM

Stainless-steel body / resistance elements / sauna stones / temperature sensor / external control.

RANGE
6-36 kW

SUPPLY
230/400 V

CONTROL
External digital

ASSEMBLY
Comet

MATCH THE HEAT TO THE ROOM.

Preliminary guidance; final selection follows verified internal volume and envelope.

kW	VOLTAGE	PHASE	ROOM m3
6	230/400	1/3	5-9
8	230/400	1/3	8-12
9	230/400	1/3	9-14
12	400	3	12-18
15	400	3	15-24
18	400	3	18-28
24	400	3	24-36
36	400	3	36-54

NOT EXTRAS. ESSENTIALS.

The details that turn heat into a complete sauna experience.

01 **SAUNA STONES**

02 **BUCKET + LADLE**

03 **THERMO-HYGROMETER**

04 **SAND TIMER**

05 **HEADRESTS**

06 **FLOOR GRID**

07 **WARM LED LIGHTING**

08 **GLASS DOOR + HARDWARE**

ONE TEAM. ONE STANDARD.

From first survey to commissioned heat, every stage stays connected.

01 **SURVEY**

Site dimensions and service review.

02 **DESIGN**

Layout, elevations, finishes and equipment.

03 **COORDINATE**

Power, ventilation, drainage and interfaces.

04 **CRAFT**

Controlled manufacturing and pre-assembly.

05 **INSTALL**

Specialist site installation and finishing.

06 **COMMISSION**

Testing, handover and operating guidance.
