

COMET SPA INTERIOR | 2026

VICHY SHOWER

THE ART OF WATER, ENGINEERED.

A complete hydrotherapy collection for luxury spas, hotels, resorts and wellness suites.

DESIGN • SUPPLY • INSTALLATION

WOOD | STONE | UPHOLSTERED

SIGNATURE HYDROTHERAPY

A ritual written in water.

A Vichy shower surrounds the guest with a synchronized rain massage while the therapist remains free to perform scrubs, wraps and body rituals.

THE EXPERIENCE

- **Immersive rain massage**

  Multiple aligned shower heads deliver a continuous, enveloping water pattern.

- **Therapist-led rituals**

  Ideal for exfoliation, mud, algae, hammam-inspired and contrast-temperature journeys.

- **Premium guest perception**

  A memorable signature treatment that elevates the spa menu and treatment-room value.

COMET delivers the complete room concept

Equipment • treatment bed • plumbing coordination • finishes • testing

TREATMENT VALUE

Designed for body, mind and ritual.

Wellness benefits are presented as supportive spa outcomes, not medical claims.

01 DEEP RELAXATION

Warm, rhythmic water encourages a calm, restorative treatment experience.

02 SENSORY STIMULATION

Adjustable temperature and pressure create a layered hydrotherapy journey.

03 RITUAL EFFICIENCY

Fast, controlled rinsing between scrub, wrap and product stages.

04 THERAPIST FREEDOM

Hands-free overhead flow allows continuous massage and treatment technique.

05 GUEST COMFORT

Even water coverage minimizes repositioning and supports a seamless ritual.

06 MENU DIFFERENTIATION

Creates signature body treatments for premium hotels, resorts and day spas.

THE COLLECTION

Three expressions. One water ritual.

WOOD SPA BED

Warm, sculptural and resort-ready.

Premium hardwood slatted top • integrated drainage • artisan finish

STONE / MARBLE BED

Architectural and permanently built-in.

Natural stone, mosaic or porcelain finish • concealed services

UPHOLSTERED WET TABLE

Contemporary comfort with easy sanitation.

Water-resistant wet-table surface • fixed or cantilever shower rail

MODEL 01

The Timber Ritual

A freestanding statement piece for destination spas and private wellness suites.

- **Construction**

  Selected moisture-resistant hardwood; marine-grade sealing system.

- **Treatment surface**

  Slatted ergonomic deck with head opening and concealed water collection.

- **Shower architecture**

  Curved stainless-steel arch with 5-7 individually aimable shower heads.

- **Customization**

  Wood tone, length, width, nozzle count, hand shower and mixer configuration.

BEST FOR

Luxury resorts • nature spas • signature suites

COMET SPA INTERIOR

MODEL 02

The Architectural Bed

Built as part of the room: seamless, durable and completely bespoke.

- **Finish palette**

  Marble, granite, mosaic, porcelain or pebble texture selected with the spa concept.

- **Integrated drainage**

  Sloped waterproofed surface directs water to a concealed outlet.

- **Service access**

  Valves, filters and mixer remain accessible through a coordinated access panel.

- **Room coordination**

  COMET supports setting-out, waterproofing interfaces and MEP coordination.

SYSTEM ANATOMY

Every component, considered.

Configuration varies by model and project requirements.

A — STAINLESS SHOWER RAIL

Rigid wall, ceiling or bed-mounted support.

B — 5-7 SHOWER HEADS

Aimable heads for balanced full-body coverage.

C — THERMOSTATIC MIXING

Stable temperature control; anti-scald option.

D — ZONE / FLOW CONTROL

Manual isolation or sequenced zones by specification.

E — HAND SHOWER

Targeted rinsing and bed cleaning.

F — WET TREATMENT BED

Wood, stone or upholstered construction.

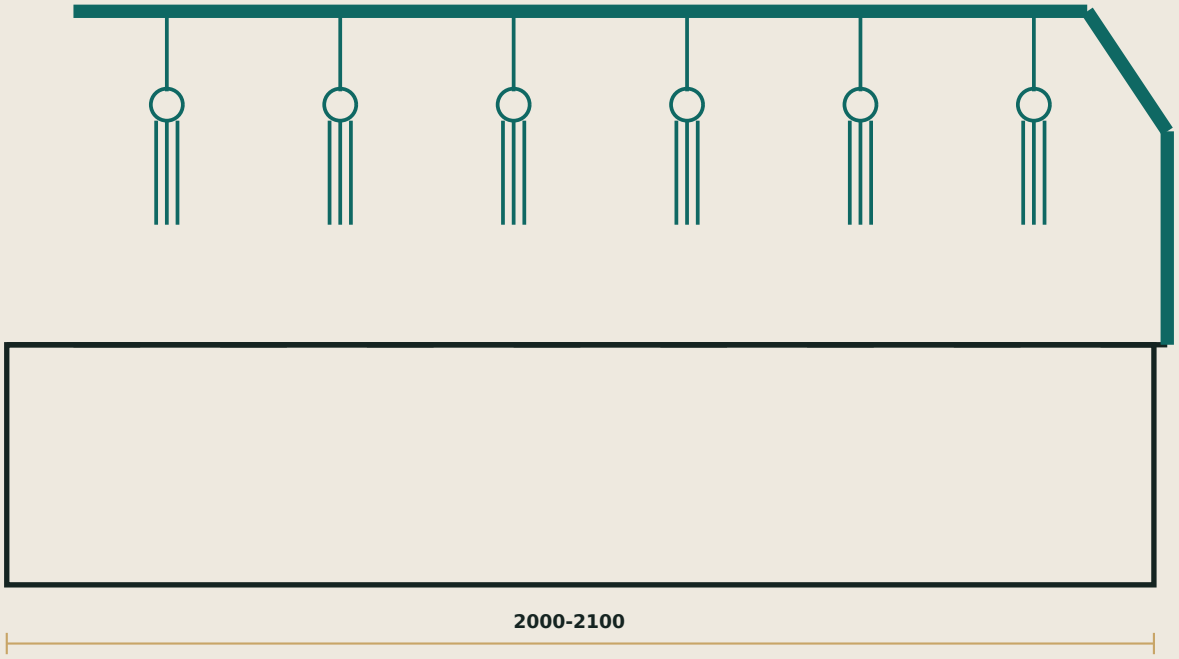

G — DRAINAGE ASSEMBLY

Graded collection surface and trapped floor drain.

DIMENSIONAL GUIDE

A clear starting point for coordination.

Indicative dimensions shown in millimetres. Final shop drawings are issued after site survey and model selection.

RECOMMENDED PLANNING ENVELOPE

Bed length	**2000-2100 mm**
Bed width	**750-900 mm**
Finished bed height	**700-800 mm**
Rail length	**1500-1800 mm**
Nozzle height above bed	**1000-1200 mm**
Clear working zone	**Min. 900 mm one side**

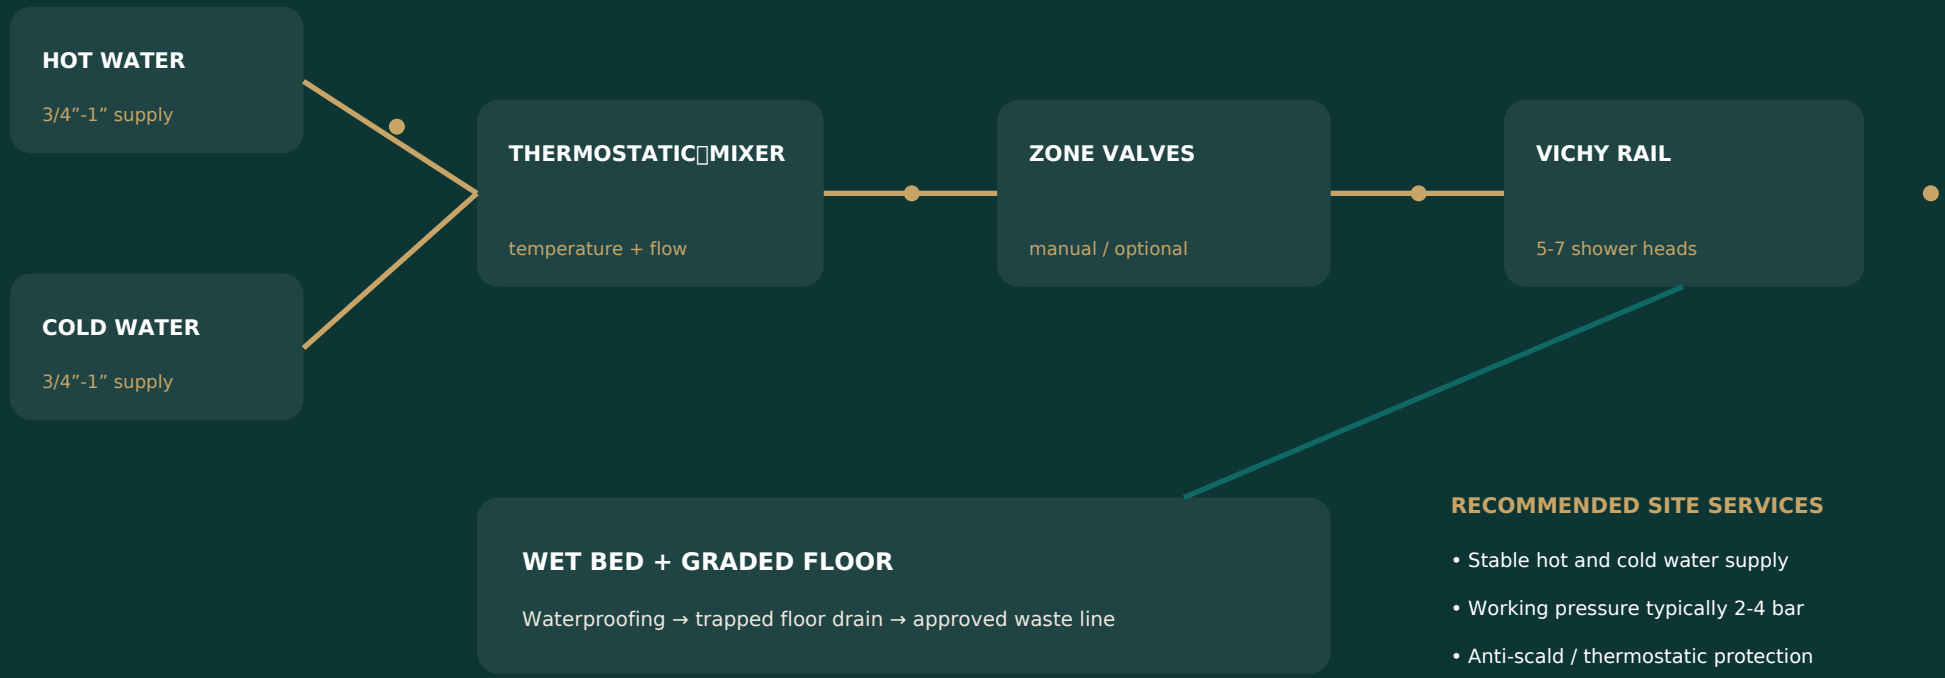

CUSTOM SIZES AVAILABLE

Built around your room and treatment menu.

HYDRAULIC CONCEPT

Simple to operate. Engineered to perform.

Indicative schematic - final pipe sizing, valves and protection depend on local codes and approved equipment.

RECOMMENDED SITE SERVICES

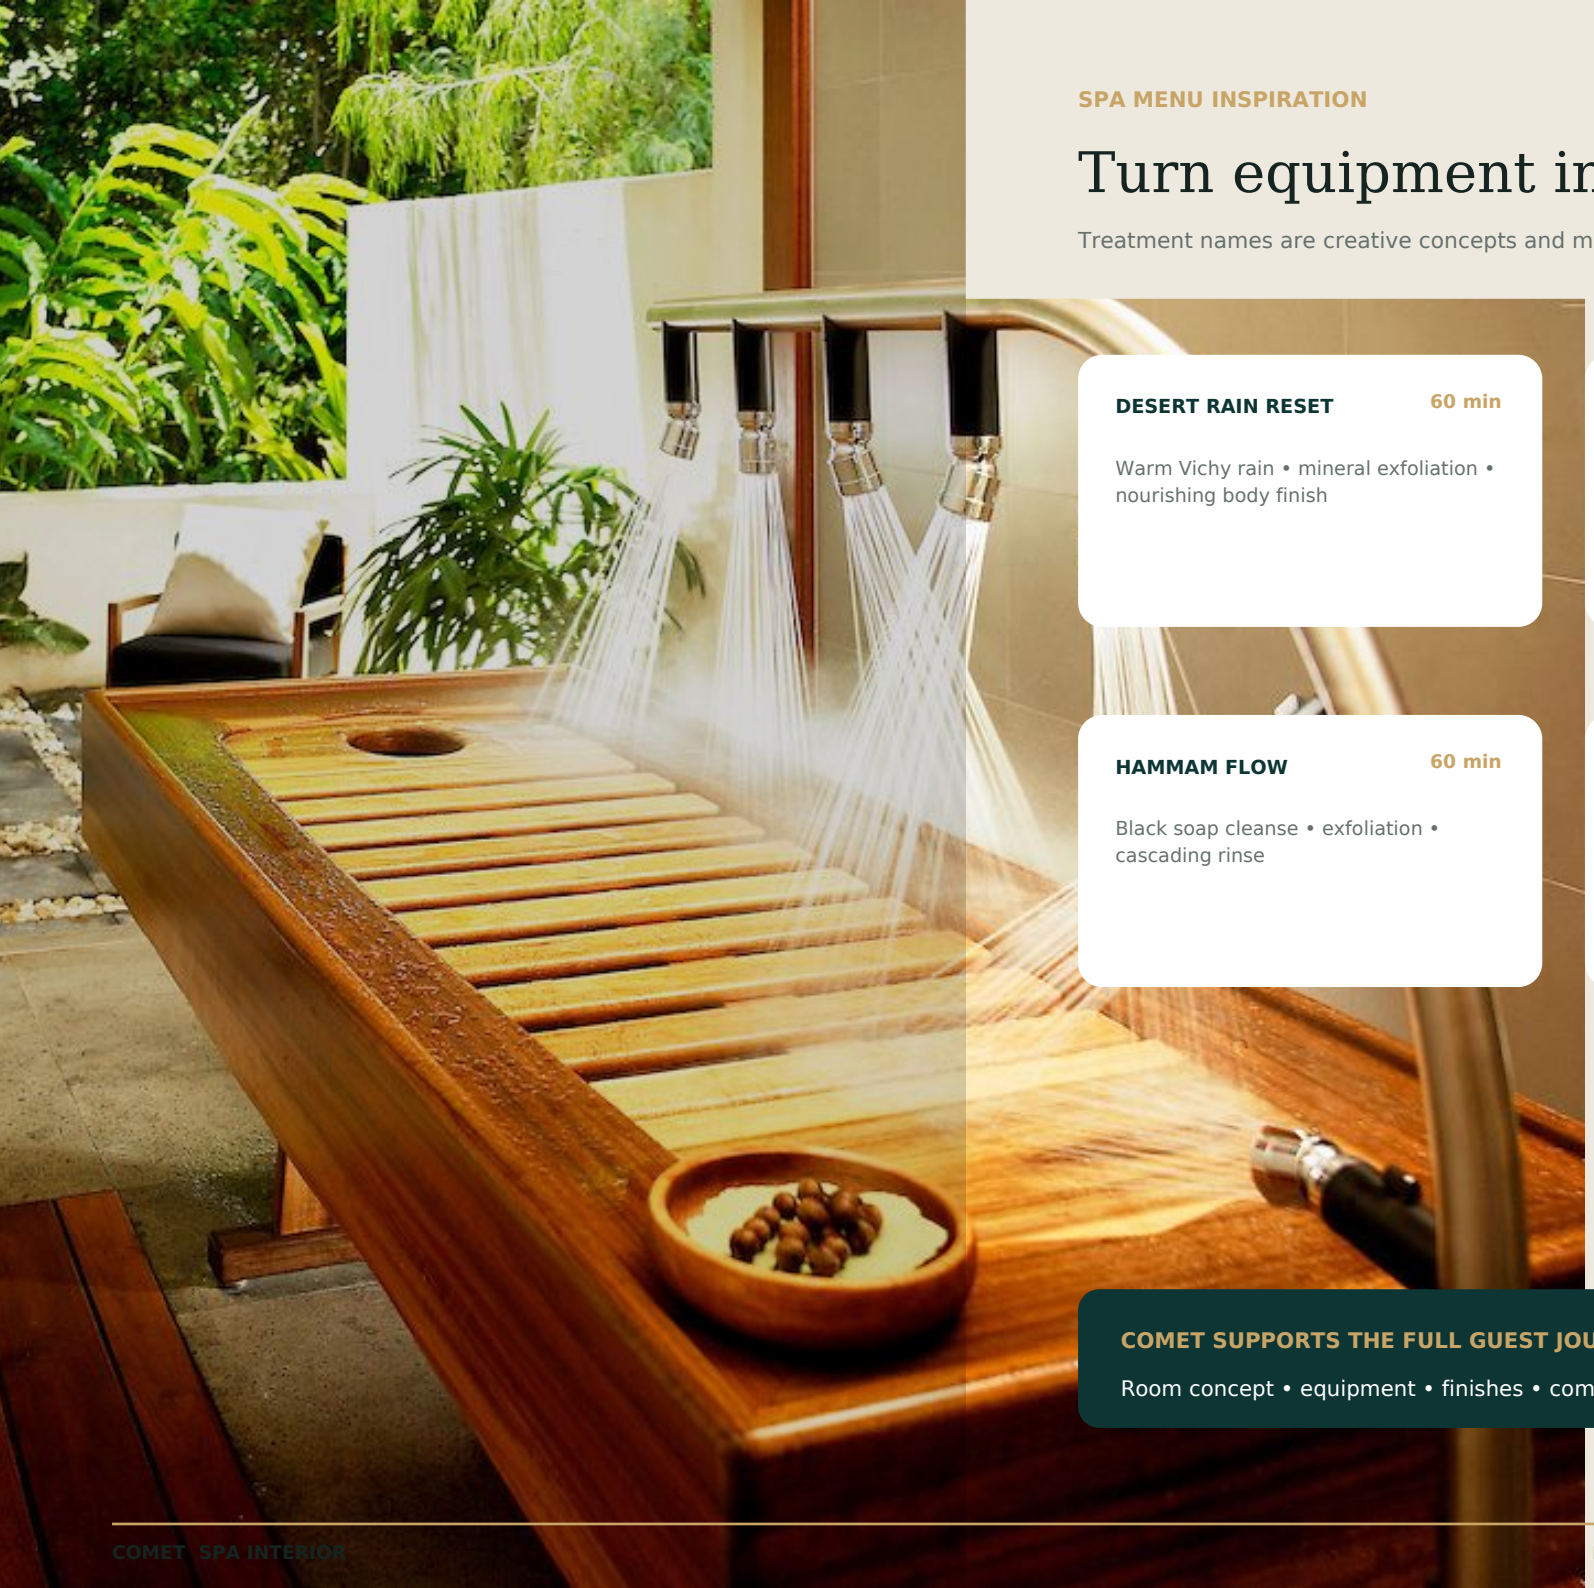

- Stable hot and cold water supply
- Working pressure typically 2-4 bar
- Anti-scald / thermostatic protection
- Floor drain and full wet-room waterproofing
- Accessible isolation valves and service panel

TECHNICAL SCHEDULE

Specify with confidence.

Values are recommended design ranges and are confirmed against the selected model, local code and site conditions.

Application	Professional spa wet-treatment room
Nozzle configuration	5, 6 or 7 heads; adjustable spray orientation
Primary construction	Stainless steel, project-specified grade and finish
Water control	Thermostatic mixer; flow control; optional zone sequencing
Typical working pressure	2-4 bar at equipment, subject to nozzle selection
Indicative combined flow	Approx. 30-60 L/min; verify with selected heads
Water connections	Hot + cold, typically 3/4” to 1”
Drainage	Trapped floor drain / integrated bed outlet, project-designed
Bed materials	Sealed hardwood / stone or marble / wet-table upholstery
Optional accessories	Hand shower, filtration, aroma dosing interface, LED ambience
Installation	By COMET or under COMET-approved coordination
Final documentation	Shop drawings, service points and method statement

SPA MENU INSPIRATION

Turn equipment into signature revenue.

Treatment names are creative concepts and may be adapted to the property brand.

DESERT RAIN RESET — 60 min

Warm Vichy rain • mineral exfoliation • nourishing body finish

RED SEA SALT RITUAL — 75 min

Sea-salt scrub • rhythmic rinse • cooling hydration

HAMMAM FLOW — 60 min

Black soap cleanse • exfoliation • cascading rinse

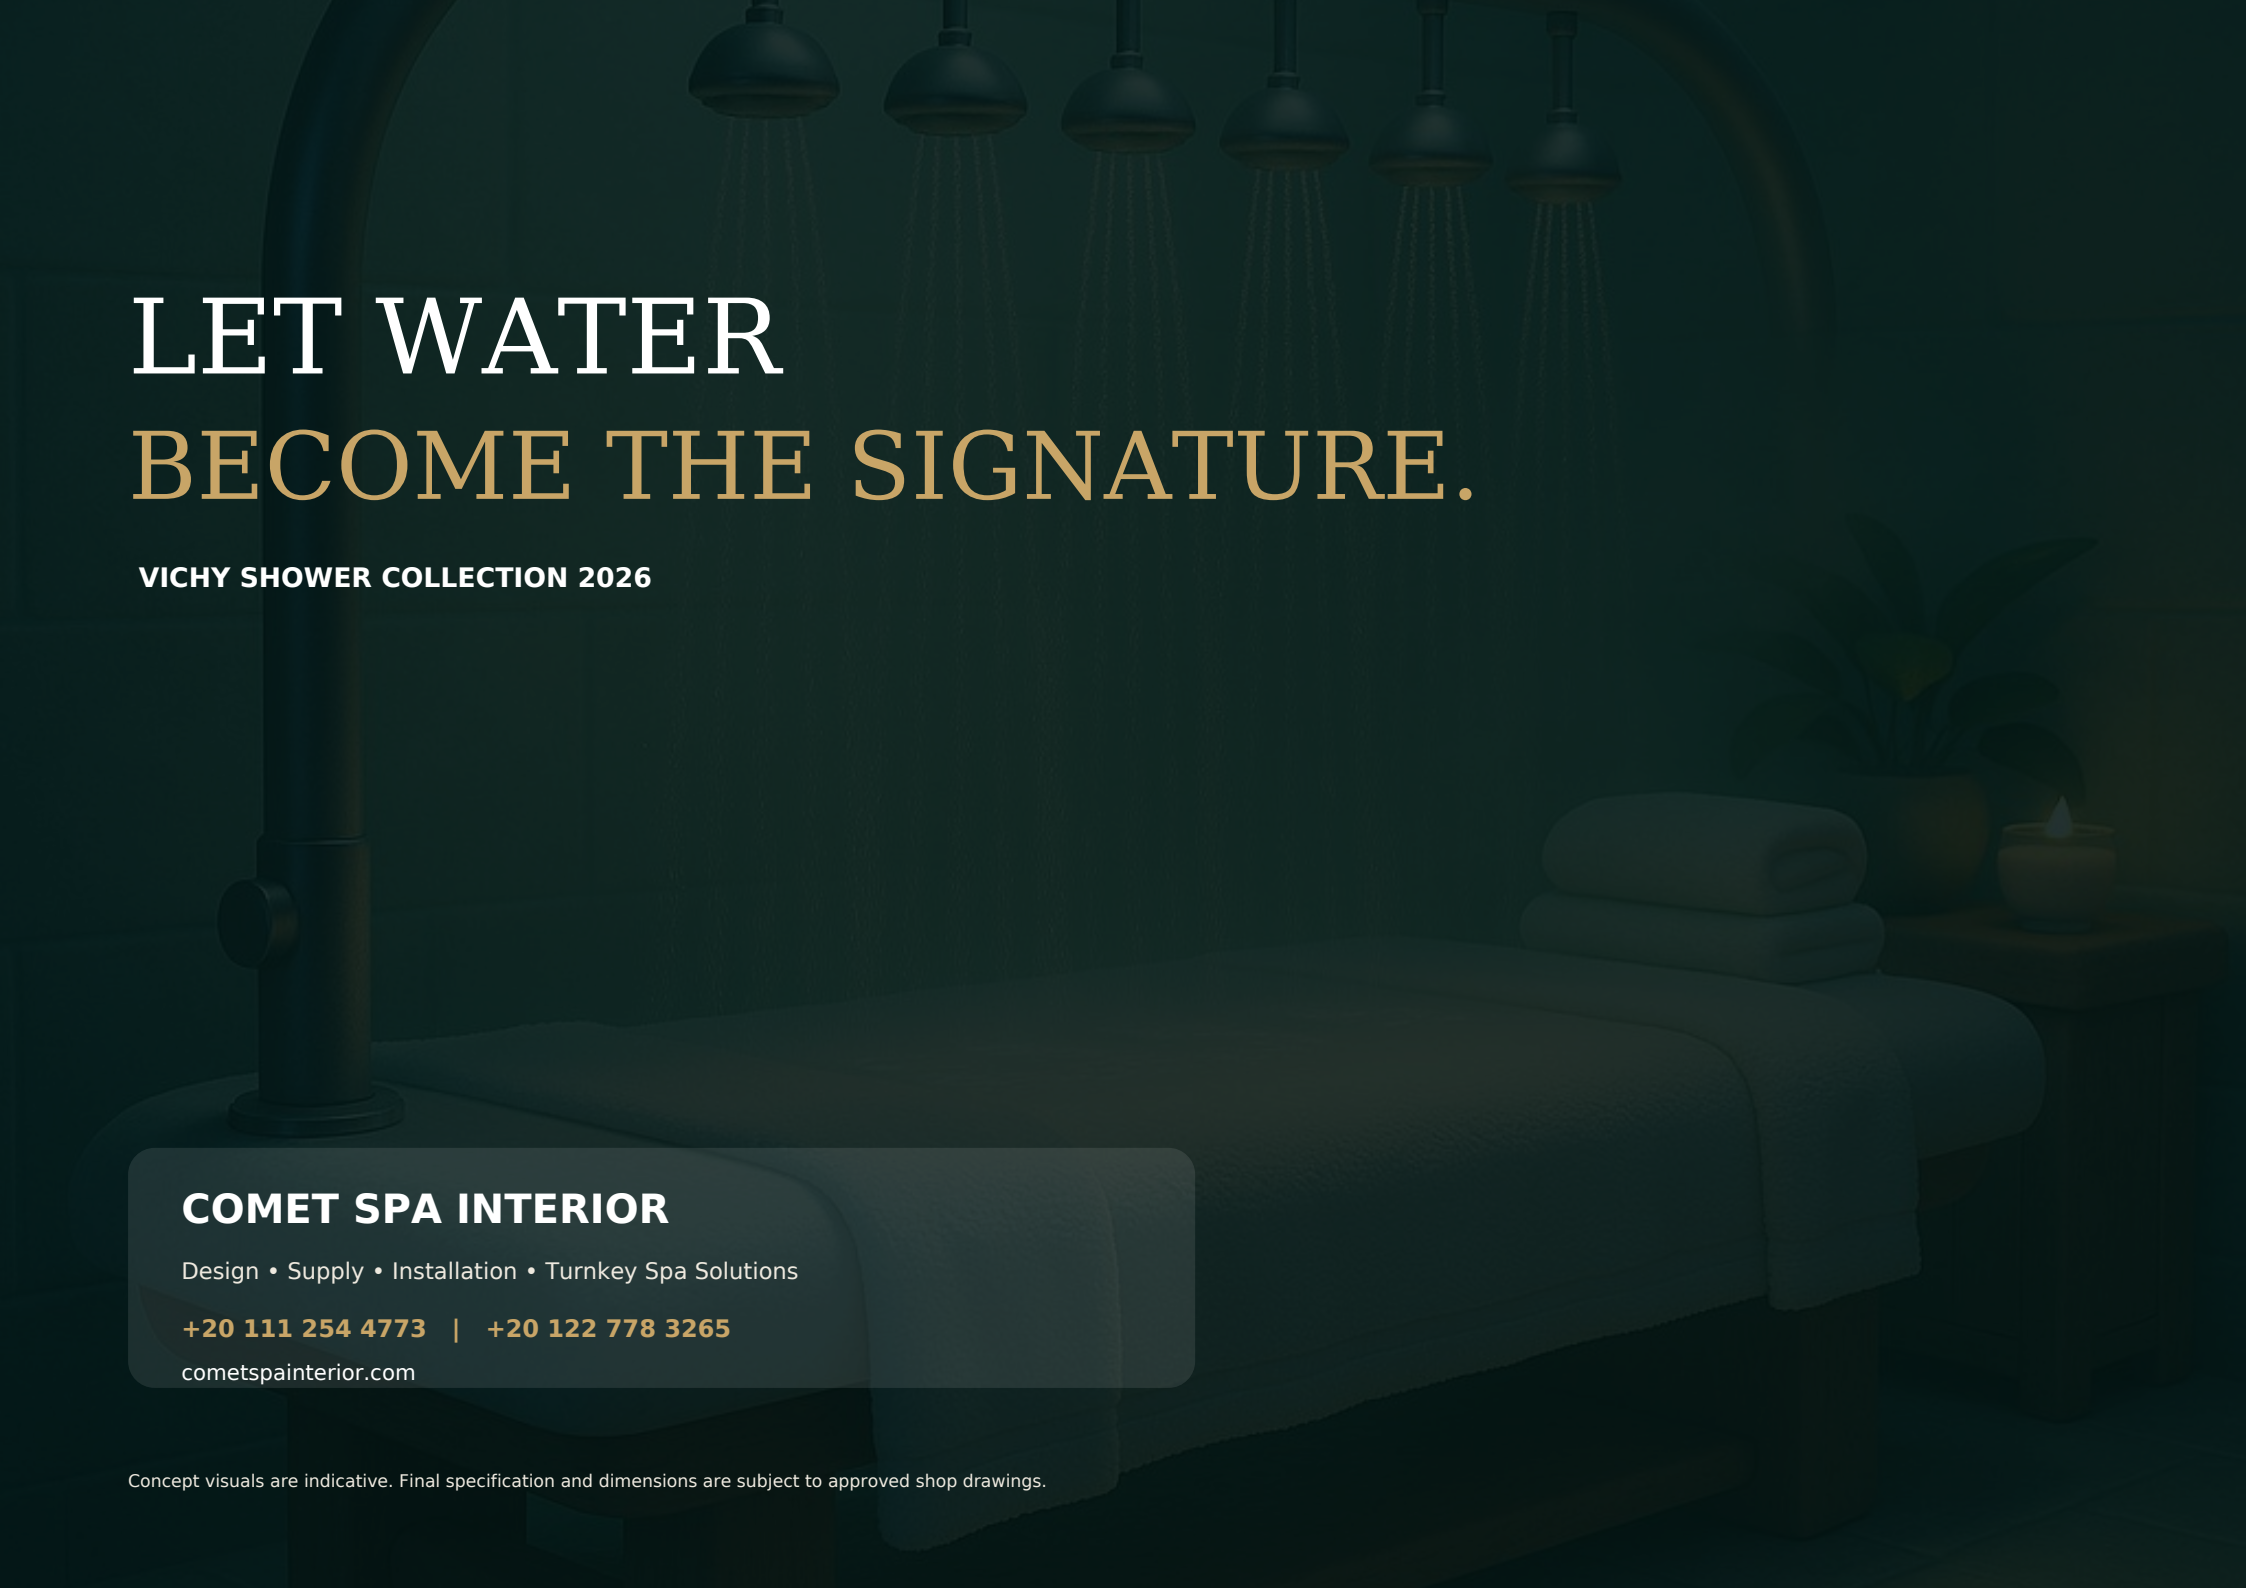

BOTANICAL WRAP RELEASE — 90 min

Plant-based wrap • scalp ritual • warm shower finish

COMET SUPPORTS THE FULL GUEST JOURNEY

Room concept • equipment • finishes • commissioning
